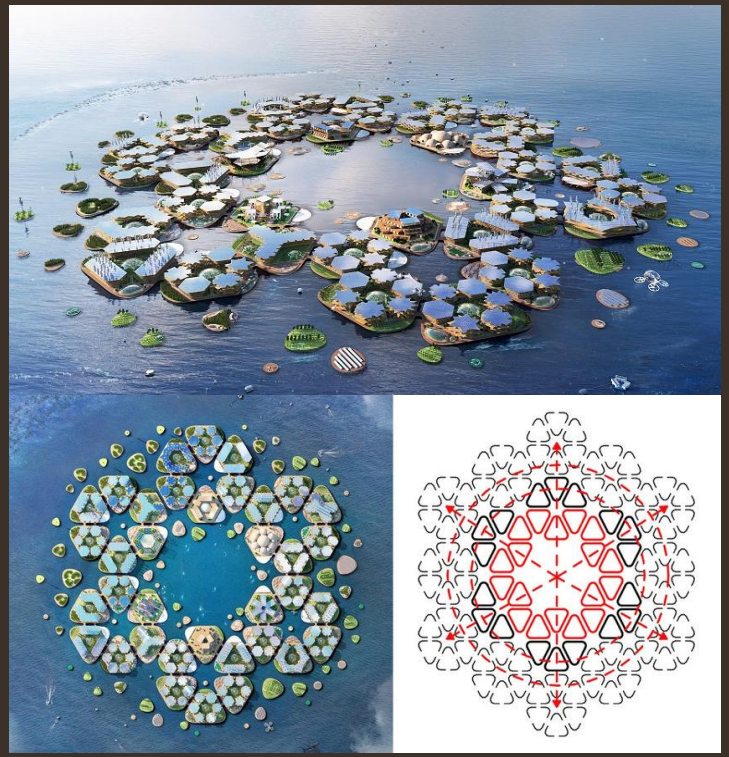
# The Floating Cities of Light: a vibrant space in the Metaverse



*Placeholder images

**We are building a city for the Metaverse**.

The floating cities of light are a sustainable, adaptable and scalable home for our community.

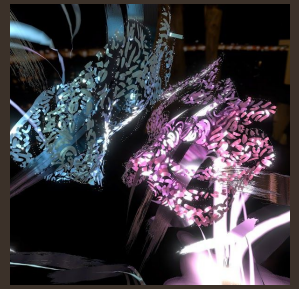
→ Geared towards **Standalone VR users** (ie. Meta Quest), a sector currently exploding.

→ Also accessible through web & mobile phones

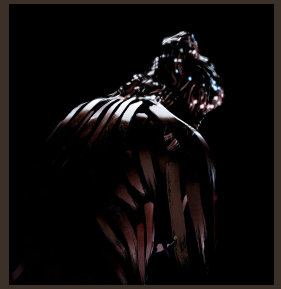
*Confidential*

# Citizens of Light, a community of Metaverse builders

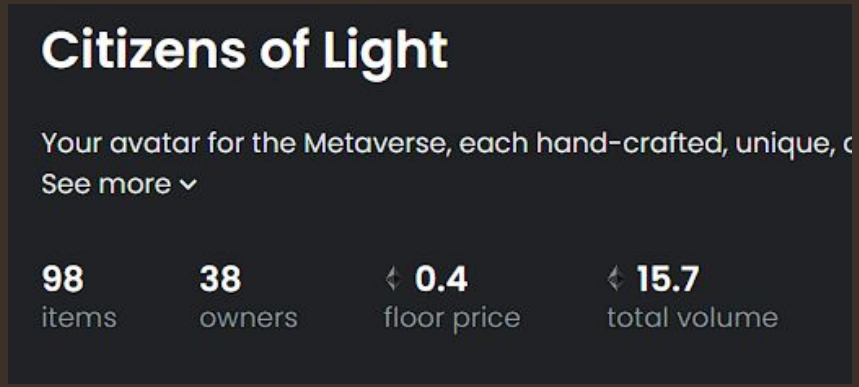
*"#32 Paul"*



*"#40 Exaltation"*



*"#91 Venus"*



The "Citizens of light" NTF is our **PFP** *(Picture For Proof)*:
**Owning one gives you access to the community.**

This translates to:

- Access to the Metaverse (except spaces open to visitors)
- Access to token-gated events
- Airdrops, private sales, exclusive drops and % of revenue

Final total number of PFPs in this collection:

→ **1000**

*Confidential*

# Land: The floating islands

*A Villa Island*

The lands of the project are floating Islands NFTs:

- **Villa islands**
  *private lands for individuals*
- **City islands**
  *public lands for organizations*

The **initial supply will be airdropped** to the current community, around 50 people.
Supply will then grow steadily with community usage.

Final total number of Islands in the collection:

→ **756**

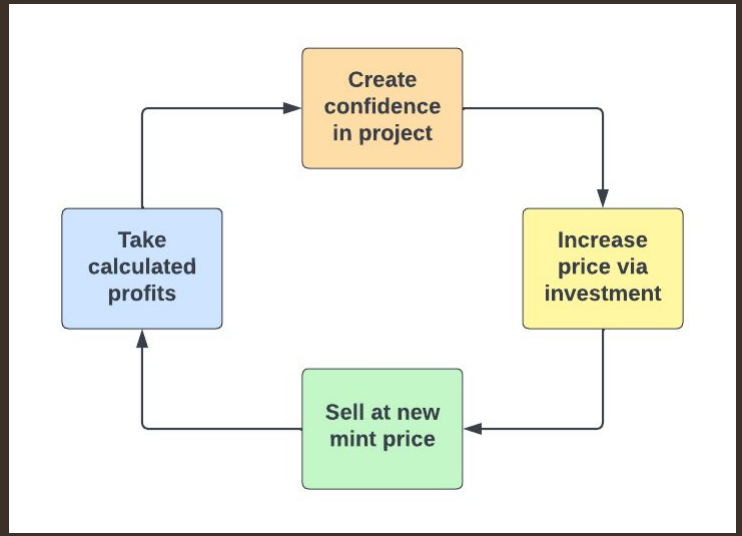
# Accelerating growth & making profit: The pump spiral



1) We were able to create a small (~50 buyers) but very loyal community, trusting the project.

2) By investing $3000, we were able to increase the floor price of the PFP collection from 0.06 to 1 ETH (x16)

3) We then sold 10 PFPs for a discounted price of 0.25 ETH, through a special offer with a partner.

4) Net profit $3000

→ Reiterate

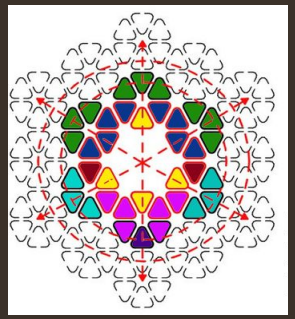
# Expansions phases

## Phase 1

**Land airdrop**

**Content collections releases**

**Phase 1 marketing push**



- **108** Islands
- **225** PFP users
- ~10 partners

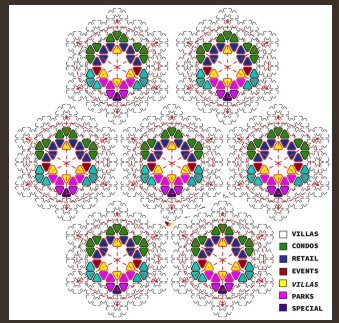
*September 2022*

## Phase 2

**City building**

**Launch & First events**
*September 2023*

**Phase 2 marketing push**



- **756** Islands
- **1000** PFP users
- ~40 partners

*Confidential*

# Pricing projections

| | Current | At phase 1 completion | At phase 2 completion |
|---|---|---|---|
| PFP Floor price | 1 ETH | 4 ETH | 10 ETH |
| PFP Mint Price | 0.5 ETH | 2.0 ETH | 5.0 ETH |
| PFP OTC Price | 0.4 ETH | 1.6 ETH | 4.0 ETH |
| Number of pieces | 100 | 200 | 1000 |
| Total value (based on floor price) | 100 ETH | 800 ETH | 10,000 ETH |
| | | | |
| Land Floor price | 1 ETH | 4 ETH | 10 ETH |
| Land Mint Price | 0.5 ETH | 2.0 ETH | 5.0 ETH |
| Land OTC Price | 0.4 ETH | 1.6 ETH | 4.0 ETH |
| Number of pieces | 50 | 108 | 756 |
| Total value (based on floor price) | 50 ETH | 432 ETH | 7,560 ETH |

*Confidential*

# Funds ask

## Phase 1

**30 ETH** *(~60k$)*
**for 30 PFP pieces**

*~$50 000 for 3% of 1000 PFP*
*→ 1 ETH Per PFP*
*→ Implied valuation 1000 ETH (~1.8M$)*

## Phase 2

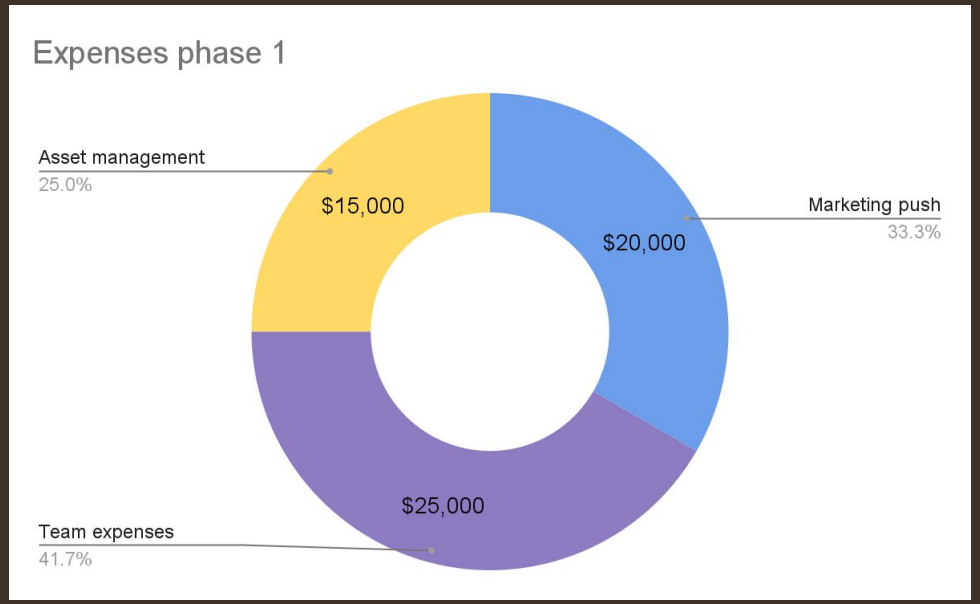
**80 ETH** *(~150k$)*
**for 30 PFP pieces**

*~$150 000 for 3% of 1000 PFP*
*→2.6 ETH Per PFP*
*→ Implied valuation 3000 ETH (~5.6M$)*

** Final price might be adjusted according to ETH value on time of raise*

*Confidential*

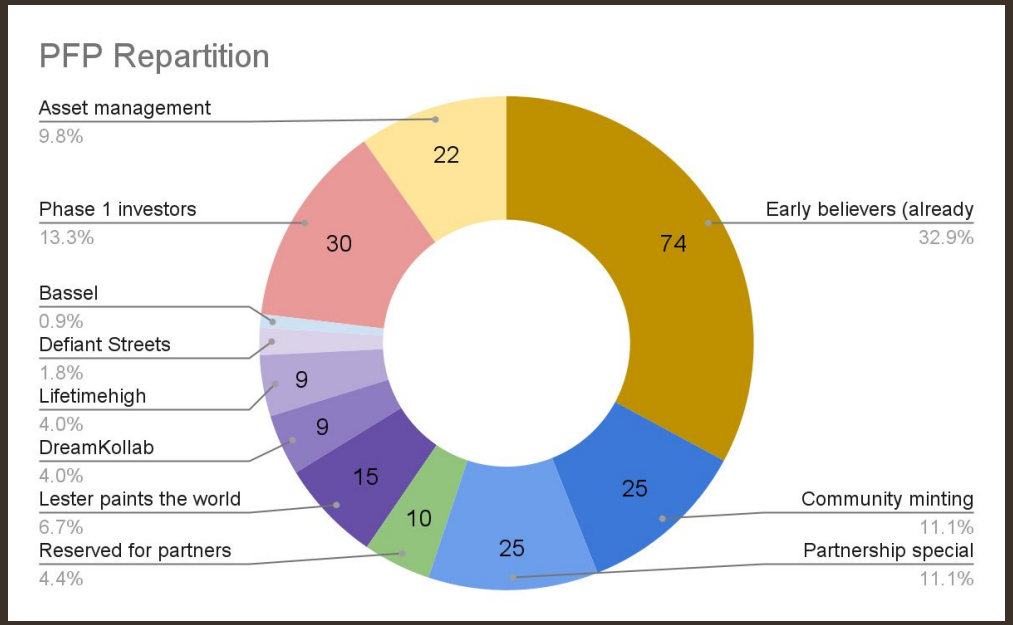
# Expenses: phase 1



- Asset management liquidity pool allows us to control price
- Marketing push allow us to get to 200 PFP owners

*Confidential*

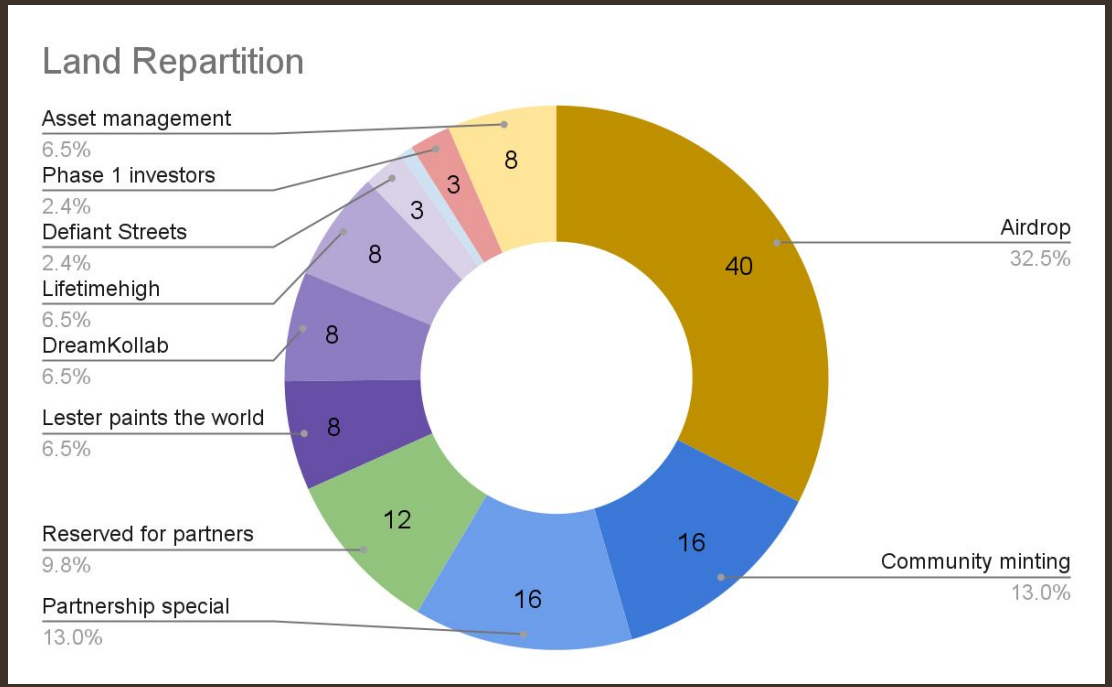
# Phase 1 Asset Repartition: PFP



- All mints liquidity goes to the liquidity pool of the project
- **PFP repartition will be used a reference point for profit sharing**
  % of profit shared will be indicated by the number of PFP owned (enforced by a smart contract).
- All team members will be subject to a vesting schedule (linear)

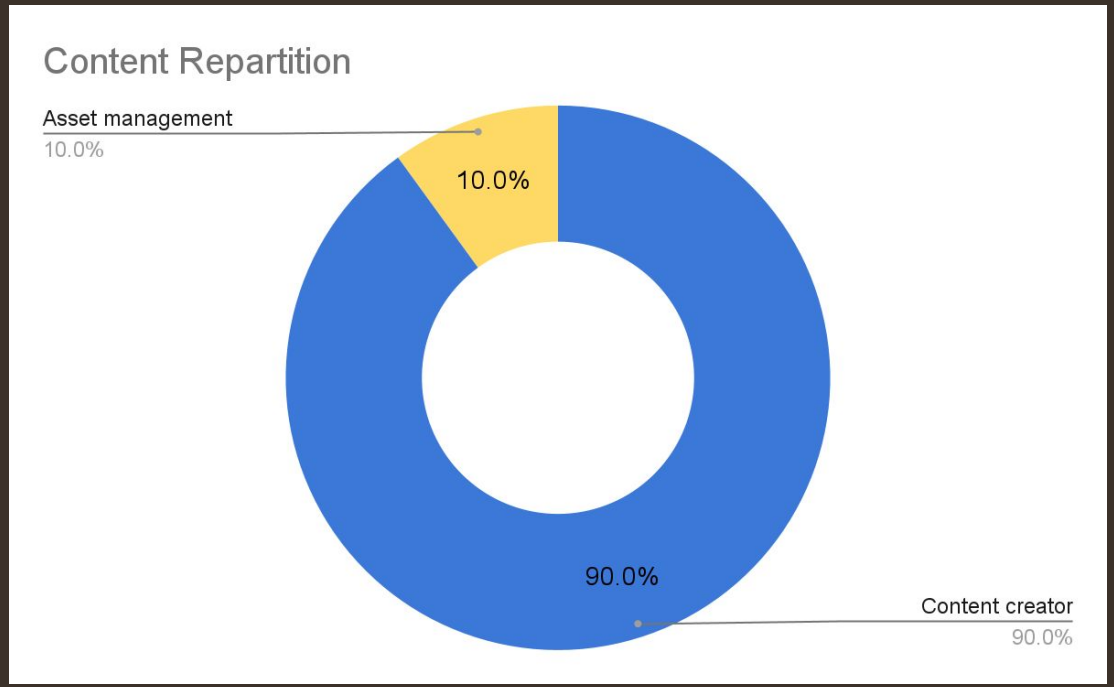
*Confidential*

# Phase 1 Asset Repartition: Land



- All parties have a linear vesting schedule for lands

# Phase 1 Asset Repartition: Content



- 10% of the asset goes to the project crate, managed by the FCL team
- The content creator is free to manage the % split for the rest, collection by collection (depending on sales etc.)

*Confidential*

# Host Metaverse

We are not building a Metaverse:

We are building **a brand** & **a community.**

The community will have a **main Host Metaverse** for its space, but might use other Metaverses, to take advantage of the different platforms (ex: full-body concerts in VRChat). The community might switch to a different metaverse down the line if more adequate ones become available.

Host Metaverse candidates:

**Spatial.io**

**Somnium Space**

# Key partnerships

**Large partners:**

- VR Events organizers (Concerts, Festivals, Exhibitions)
- Asset designers (architecture, furniture, objects, avatars, wearables)
- Brands with Metaverse presence / NFT Brands
- VR art Galleries / NFT Galleries
- VR Movie producers

**Small partners:**

- VR artists / NFT artists
- Meetups groups
- VR teachers (dance teachers, language teachers) & VR Schools
